Image Quality, Resolution & Scaling artwork:

Large Format Printing: 10' x 30' or Larger (approx.) 600dpi (ppi) 1" = 1' Scale -1/12th

Medium Format Printing: 2' x 6' to 8' x 16' (approx.) 1000dpi (ppi) 1" = 1' Scale -1/12th

Alternative scaling may be used, as required by limitations in some software* eg. (1/8th, 1/24th)

Image Scanning:

Available upon request. *(Additional charges may apply.)*

Art Preparation

- Layouts should be prepared in proportion and to scale of the size required for final output
- Individual layouts for each unique outputs, include all fonts, support files/ high resolution images, and spot colours Pantone® supplied in the collected art
- Standard bleeds (approx. 3" all sides) should be supplied in the layout with guides or crop marks indicating Visible Opening / type safety **Note:** Multiple pages in a single layout may be used (ie. InDesign)
- Where possible. Low resolution PDFs should be supplied with artwork as verification, and digital proofing purposes. Also, hard copy proofs should be supplied to ensure accurate colour reproduction. If hard copy proof is not supplied colour will be based on in house calibrated output set between the Pre-press Department and Printer to achieve a quality output.

Note: Pre-press production charges may apply for revision(s), modification, or re-creation of original prints and low resolution elements in supplied artwork. Please contact our Sales team for details.
